

Anthony Summers

AA Dipl (Hons) ARB

Position Projects Director

Joined practice 1986

Born 1951

Nationality Canadian

Languages Spanish, German, French (basic)

Anthony Summers is a Projects Director who has been with IRAL since 1986 and has been responsible for projects ranging from £5 – £300 million. As Quality Manager he also has a principal role within the practice to ensure the high quality of professionalism and technical information that the practice delivers. He led the team for our research-office buildings at Stockley Park and Oxford Science Park. On the Westfield London project he successfully managed the complex interface with London Transport assurance and user requirements gaining accreditation with London Underground. As Projects Director for the Isle of Dogs Crossrail Station project he was responsible for the development of the Concept Design through to approval of the Crossrail Hybrid Bill which involved the management of multiple stakeholder requirements and a complex technical brief. He is a former tutor at the Architecture Association and Cambridge University and an RIBA External Examiner.
